

# Shelly<sup>Gen3</sup> Plug S

## NO MORE FORGOTTEN APPLIANCES

Monitor and control all plugged-in appliances easily with just a few clicks on your phone. Thanks to its integrated countdown timer and locally stored schedules, Shelly Plug S Gen3 can automatically switch off any forgotten device after an hour to save energy.

## AVOID ENERGY WASTE BY AUTOMATING YOUR ELECTRICAL APPLIANCES

Shelly Plug S Gen3 is ideal for both home and business use. Automate appliances in the office that are not used at night or over the weekend by setting smart schedules. Now, you can turn off the power to all unused electrical appliances during non-working hours and weekends, cutting their consumption by half.

## ALWAYS A WARM WELCOME HOME

Set your small heater to activate shortly before you arrive home for a cozy house when you walk in. Schedule Shelly Plug S Gen3 to turn on your heater 30 minutes before you return, or turn it on remotely from your phone. This simple automation saves time and enhances comfort, allowing you to unwind from the moment you arrive.

### Wi-Fi operated

Connect Shelly Plug S Gen3 to your Wi-Fi network. No HUB required!

### Power Monitoring

Shelly Plug S Gen3 provides precise monitoring of power consumption and data storage on Shelly cloud.

### Wide variety of appliances supported

Use it to control a wide range of devices and appliances (up to 12 A)

### Matter support

Integrates into any Matter Ecosystem

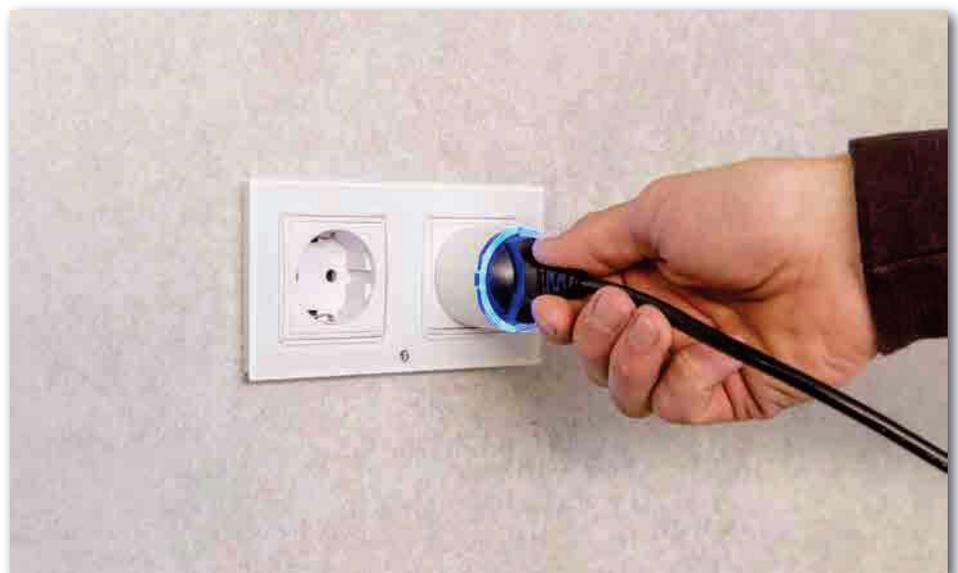

### Custom schedules

Set custom schedules based on your daily agenda or automatically follow the sunrise/sunset and control your appliances accordingly.

### Smart scenes

Set custom scenes by combining Shelly Plug S Gen3 with your other Shelly devices.

# MATTER COMPATIBLE SMART PLUG WITH POWER MONITORING AND MULTICOLOR LED INDICATION

**Shelly Plug S Gen3** is a small, yet powerful Wi-Fi smart plug that monitors and controls lighting, heating, or any other connected electrical appliance, no matter where you are. Designed for easy setup with no wiring, it's a quick addition to any smart home system that supports Matter. Simplify your daily routines and instantly make your home more efficient!

## THE NEW STANDARD FOR SMART HOME COMMUNICATION

Matter makes smart home set-up simple. All Matter-enabled devices use the same language standard, so you can connect multiple products from different brands knowing they'll work together seamlessly. Matter enables smooth smart home integration, reducing device and app switching.

## QUICK AND EASY SETUP

Guarantees a fast and simple device setup, so you can start enjoying your connected home sooner.

## LOCAL CONTROL

All Matter-certified devices will work smoothly even if your home goes offline. Once set up, Matter devices can communicate and be controlled directly on your local network.

## SEAMLESS COMPATIBILITY

Matter devices work together with no need for separate smart hubs. Connect devices from different brands in seconds.
