

WE PROUDLY PRESENT:

# TELLDUS SMART WEATHER STATION

14759 SMART WEATHER STATION

## Smart weather station to keep track of the weather!

With this smart weather station you get a lot of information that can help you with your garden and planning of outdoor activities. All this is presented on a easy-to-read display in your home. Enjoy the convenience of having indoor temperature, outdoor temperature, humidity, rain, and wind presented in one place! When included in the powerful Telldus Live! system\* you can also for example get notifications in your phone based on the weather, for example to remind you to retract the awnings if the wind picks up.

## Measures the following which can be shown in Telldus Live!\*

- Indoor and Outdoor Temperature
- Indoor and Outdoor Relative Humidity
- Wind Direction and Wind Speed
- Rain per hour and Total Rain

\* To use this product with Telldus Live! you need a TellStick (sold separately) connected to your router or switch.
